POLY PRO LEGGINS

60 €

These leggings and top are made from a combination of Spandex (10%) and polypropylene (90%) offering a perfect layering material. This garment has the outward appearance of Lycra but has a brushed 'fleece like' inside to provide good thermal qualities. It also remains remarkably dry as the polypropylene material just hates water. Wear it under neoprene wetsuits, our Race Skin, our Dry Suit.

Titanium HOT LEGS

79 €

Rooster Hot Legs / Hot Top - a revolution in warmth - A 0.5mm titanium layer that is both comfortable and warm. Wear it under your normal sailing gear for extra warmth - remember layers are better than thickness! Titanium neoprene acts in a similar way to a survival blanket, the titanium impregnated reflective layer is sandwiched between the neoprene and the interior nylon lining, this lining reflects radiated heat back to the body.

A 'T' in the sizing indicates a 'Tall' fitting.
For example, the 'medium tall' is the same height as the large but with a slimmer cut.

~~95 €~~

OFERTA ESPECIAL
GEN ROSES = 76 €

Your ideal winter partner to your hikers and aquafleece - New design Rooster Race Skin with Grey Trim, 1mm neoprene with shiny terry lining and superstretch side panels. Design now features foot loops for a more comfortable fit over the ankle bone. You can use it when October comes around, as first natural warmer for your legs - and easy access for a wee (sorry girls) . It fits snug so you can wear your hikers like it is summer. You can put in the washing machine after the weekends racing and tumble them on cool.

ALL PURPOSE BOOT (RAPB)

65 €

OFERTA ESPECIAL
GEN ROSES = 52 €

65 €

Rooster have added a new zipped dinghy boot to their range. The design objective was to produce a boot that was warm, protective and easy to put on whilst giving the hiking support of a stiff rubber boot. The super thick sole gives stability underfoot whilst easily retaining flexibility. The boots protective rubber coating provides increased wear and longevity. The real gem is the new anti-stretch neoprene that is used down the length of the boot. These woven crossfibres reduce stretch when hiking, keeping your foot fixed in position whilst still allowing stretch for comfort. The heavy duty zip has a neoprene gusset for comfort, whilst the zip is held up by a moulded Velcro tab and pad ensuring the boots stay fastened to your feet! Its fleece lining make putting the boots on over a dry suit foot as easy as using a plastic bag. Outstanding sole protection and toe support make this rooster dinghy boot a must for those sailing everything from hiking

SEMIDRYTOP (RSDT)

179 €

179 €
OFERTA ESPECIAL
GEN ROSES = 143 €

Rooster Semi Dry Top (Spray Top) - With its adjustable neoprene neck, cuffs and waist, make it a very comfortable top to wear and take on and off. This is made from a tri-laminate breathable fabric with excellent water run off. Despite all the seams of this garments being taped, we have still called this top a semi dry top as the neck will allow water in, should it not be done up securely.
